# CREATE, COLLABORATE, & INSPIRE.

We believe that connecting with others is as important as ever. By providing experience-based solutions, we know you can bring your groups together closer than ever before, even while physically apart.

Origin Event Planning's goal is to inspire you and your team to think outside the box for remote and at-home meetings, events, remote workers, and clients. We provide everything you need for engaging and meaningful experiences through turn-key creative, fun and unique remote activities.

We pride ourselves in delivering outstanding face to face events and activities, but in the time of Covid-19, we have adapted our activities to provide virtual options for your team, wherever they are.

The Covid-19 pandemic has changed the way we work and collaborate. Companies have had to adapt quickly to set up systems for working remotely. This new working scenario can present two immediate challenges, managing groups remotely, as well as providing enough support for the emotional well being of your team. We are here to help you create an atmosphere of collaboration, fun, and culture from the comfort of your home or office.
